Subject: Phoenix Update Email
Date: 2025-02-18 09:15 AM

Hello Jane,

I wanted to update you on Project Phoenix. Our team has completed initial module integration and is now in testing. We encountered challenges with API endpoints; Michael is coordinating with the dev team to resolve these issues.

Key Points:

- Integration: 95% complete.
- Testing: Initial tests passed; further API optimization needed.
- Next: Finalize API improvements and prepare for next week's client demo.

Please review the attached specs and share your thoughts.

Regards,
John Doe, Team Alpha, SAGE Ltd
