Dear Alex,

Following our meeting, here are the key requirements for Project Nova:
1. Support real-time data analytics with scalability.
2. Ensure high data security (ISO 27001 compliant).
3. Design an intuitive, multi-language user interface.
4. Integrate seamlessly with your ERP systems.

Please review the attached detailed document and let me know if adjustments are needed.

Best regards,
Mary Johnson, Team Gamma, SAGE Ltd
