

B.Tech. 8th Semester Project Phase-II 19CSE499 / 22AIE499

Rubrics, Marks Distribution and Assessment Criteria

This document presents the evaluation rubrics, marks distribution, and review-wise assessment criteria for the B.Tech. 8th Semester Project Phase-II.

It outlines the expectations for Approval, Progress, and External Reviews, guide evaluation components, tentative review schedules, and mandatory instructions to be followed by all student teams throughout the project duration.

CSE : Evaluation Pattern: 60: 40

AIE : Evaluation Pattern: 70: 30

Reviews	Max Marks	Weightage for AIE	Weightage for CSE
Review 1	12	40	30
Review 2	12		
Review 3	16		
Guide Marks	30	30	30
External Review	30	30	40

Mark Distribution:

Internal Evaluation : 40 Marks

Evaluation by the Guide : 30 Marks

External Evaluation : 30 Marks

Course Outcomes

At the end of this course, the students will be able to:

Course Outcomes – CSE

CO	Description
CO1	Fine-tune the scientific problem and prepare project execution plan
CO2	Design and develop the prototype
CO3	Implement and analyze the findings of the proposed problem
CO4	Present, articulate, and defend the solution.

Course Outcomes – CSE (AI)

CO	Description
CO1	Solve a valid research problem by employing appropriate tools & techniques.
CO2	Identify the appropriate methodology to solve the research problem.
CO3	Apply the AI tools & techniques to solve the identified problem.
CO4	Communicate scientific discoveries through peer-reviewed publications.

Review 1(Approval)

Criterion	Team / Individual	Max Marks	High (75–100%)	Medium (50–74%)	Low (0–49%)
Literature Review Quality (based on 10 papers (minimum) from last 4 years) & Open questions/gaps in the literature	Individual	5	Very clear understanding of the literature & gaps clearly identified	Moderate understanding & obvious gaps are identified	Superficial /minimal understanding
Problem Definition & Objectives	Team	2	Very well defined	some ambiguity	poorly defined
Proposed Methodology & Feasibility	Team	3	Feasible plan, clear methods, correct tools	Partially feasible, lacking clarity	Unrealistic or unclear methodology
Impact & Utility	Individual	2	Clear understanding of the impact and utility	Moderate understanding	Poor understanding
Total		12			

Review 2 (Progress)

Criterion	Team /Individual	Max Marks	High (75–100%)	Medium (50–74%)	Low (0–49%)
Technical Progress	Team	7	Progress as per the plan proposed in the zeroth review	Partial progress; some modules incomplete	Minimal progress; major delays
Presentation Quality	Team	2	Good	Moderate	Low
Individual Contribution (measured based on VIVA)	Individual	3	High	Medium	Low
Total		12			

Review 3 (Internal Final)

Criterion	Team /Individual	Max Marks	High (75–100%)	Medium (50–74%)	Low (0–49%)
Technical Progress	Team	7	All objectives presented in the zeroth review are achieved	More than half of the objectives are achieved	Less than half of the objectives achieved
Result Analysis & Inference	Individual (VIVA)	7	In depth analysis and meaningful inference	Moderate analysis and reasonable inference	Poor analysis and poor inference
Presentation Quality	Team	2	Good	Moderate	Low
Total		16			

External Review

Criterion	Max Marks	High (75–100%)	Medium (50–74%)	Low (0–49%)
Literature Review Quality & Open questions/gaps in the literature	5	Very clear understanding of the literature & gaps clearly identified	Moderate understanding & obvious gaps are identified	Superficial /minimal understanding
Problem Definition & Objectives	3	Very well defined	some ambiguity	poorly defined
Proposed Methodology	3	Feasible plan, clear methods, correct tools	Partially feasible, lacking clarity	Unrealistic or unclear methodology
Result Analysis & Inference	8	In depth analysis and meaningful inference	Moderate analysis and reasonable inference	Poor analysis and poor inference
Impact & Utility	2	Clear understanding of the impact and utility	Moderate understanding	Poor understanding
Presentation	4	Good	Moderate	Low
Individual Contribution (measured based on VIVA)	5	High	Medium	Low
Total	30			

Guide Marks

Criterion	Max Marks	High (75–100%)	Medium (50–74%)	Low (0–49%)
Paper	15	High quality draft submitted on or before external review	Moderate quality draft submitted on or before external review	Low quality draft submitted on or before external review
Commitment, Meetings & Deadlines	10	Always prepared; punctual; delivers on time	Irregular but acceptable	Poor attendance; missed deadlines
Project Report Quality	5	Clear, original, complete	Acceptable with gaps	Poor structure; copied; incomplete
Total	30			

Review Tentative Schedule

- **Review 1 (Approval):** February – 1st Week
- **Review 2 (Progress):** March – 4th Week / April – 1st Week
- **Review 3 (Final Evaluation - Internal):** May – 2nd Week
- **External Review** – May last week / June 1st Week

Project Instructions

1. Official Communication:

All communications from the Project Coordinators will be made only through official email and/or the designated WhatsApp group. Students are expected to check their Outlook email and WhatsApp group at least 2–3 times daily. Claims of missed or overlooked communications will not be entertained. Team members must ensure that information is effectively shared within the team.

2. Meetings with Project Guide:

For every meeting with the project guide, Minutes of Meeting (MoM) shall be prepared and emailed to the guide, with all team members marked in CC.

3. Team Conduct and Contribution:

Teams are expected to work **cordially and collaboratively**. Each team member must contribute constructively to the project. Any internal conflicts or differences of opinion should be resolved within the team; unresolved issues may be escalated to the project guide.

4. Communication with Coordinators and Panel:

All emails addressed to the Project Coordinators and PANEL must include the Team ID in the subject line and all team members and the project guide in CC. Emails not adhering to this format will be considered invalid and will not be acted upon.

5. Review Presentation Compliance:

All teams must present on the scheduled review date; failure to do so will attract a penalty of 2 marks.

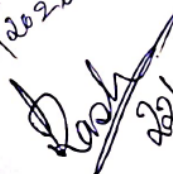

6. Review Presentations:

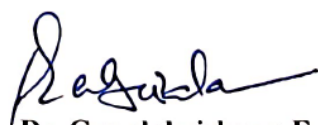

Review presentations will be permitted only after obtaining mandatory approval from the project guide via email. A screenshot of the guide's approval email must be included as the second slide in every review presentation.

7. Project Outcome Expectation:

Students are strongly encouraged to undertake projects that result in an end-to-end functional product.
